

# SPEC VPN - Sophos Client Configuration

## Step 1:

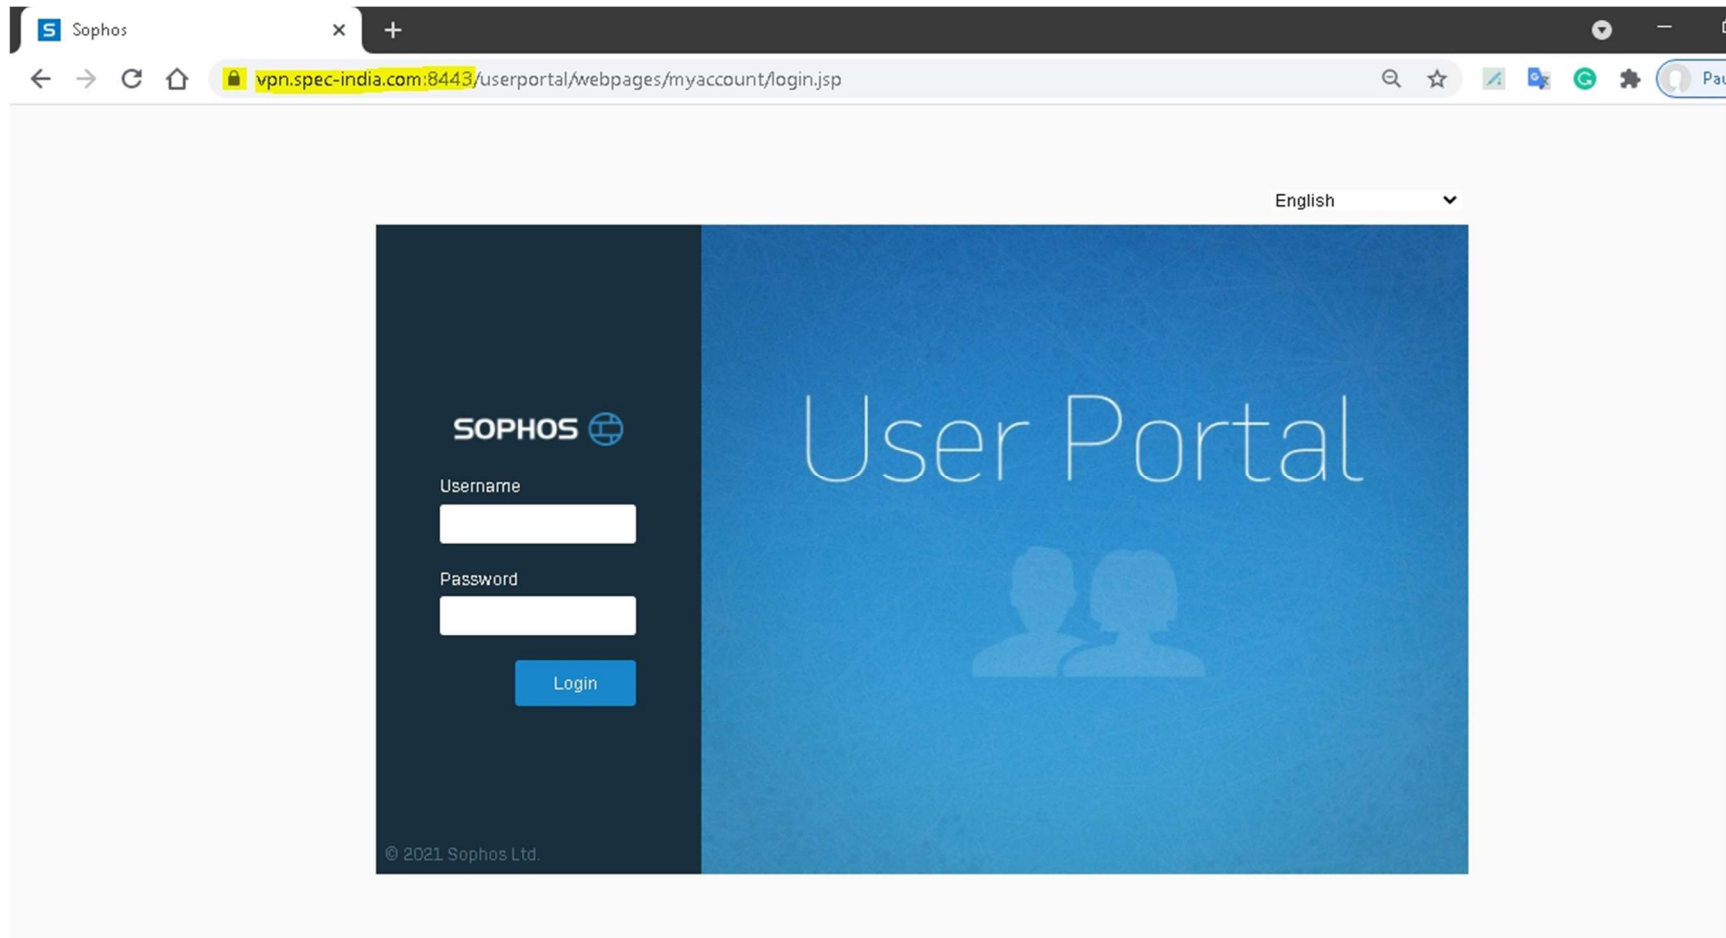

If you are installing Sophos SSL VPN for first time, then skip this step and go to step number 2.

Uninstall your existing “**Sophos SSL VPN Client**” from Control Panel > Programs and Features and then **restart** your computer.

**Step 2:**

Open SPEC INDIA VPN URL: <https://vpn.spec-india.com:8443> in browser. You will be presented with login screen as per image below.

Login with your VPN credentials (same as Active Directory Windows login username and password).

### Step 3:

After successful login, Download **Sophos Connection Client** (As shown in image below):

(A)

- Under **Sophos Connect client**, click (to download) one of the following:
- Windows OS users have to click on '[Download for Windows](#)' and MacOS users have to click on '[Download for macOS](#)' then install it in your computer by following normal installation steps.

(B)

- Under SSL VPN Configuration, Click **Download for Windows, macOS, Linux** to download the SSL VPN Configuration file. The file will have “ovpn” file extension.
- Once the files are downloaded logout from this web page.

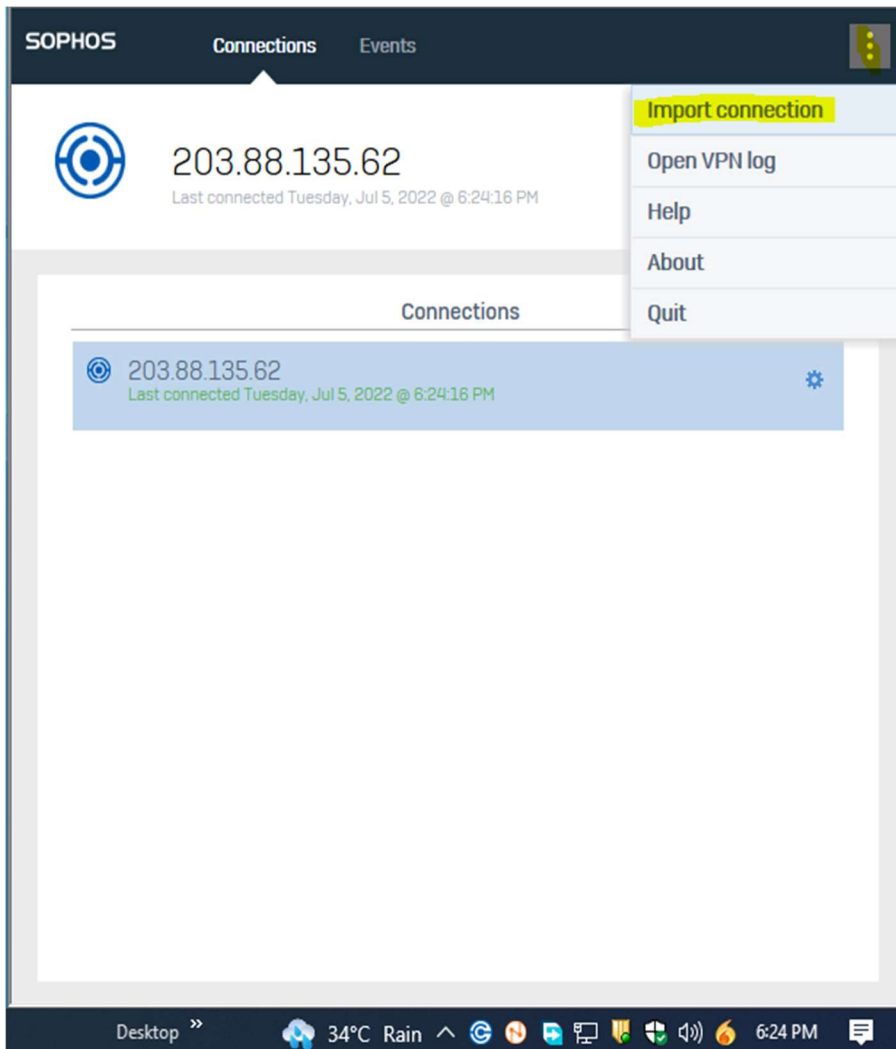

#### Step 4:

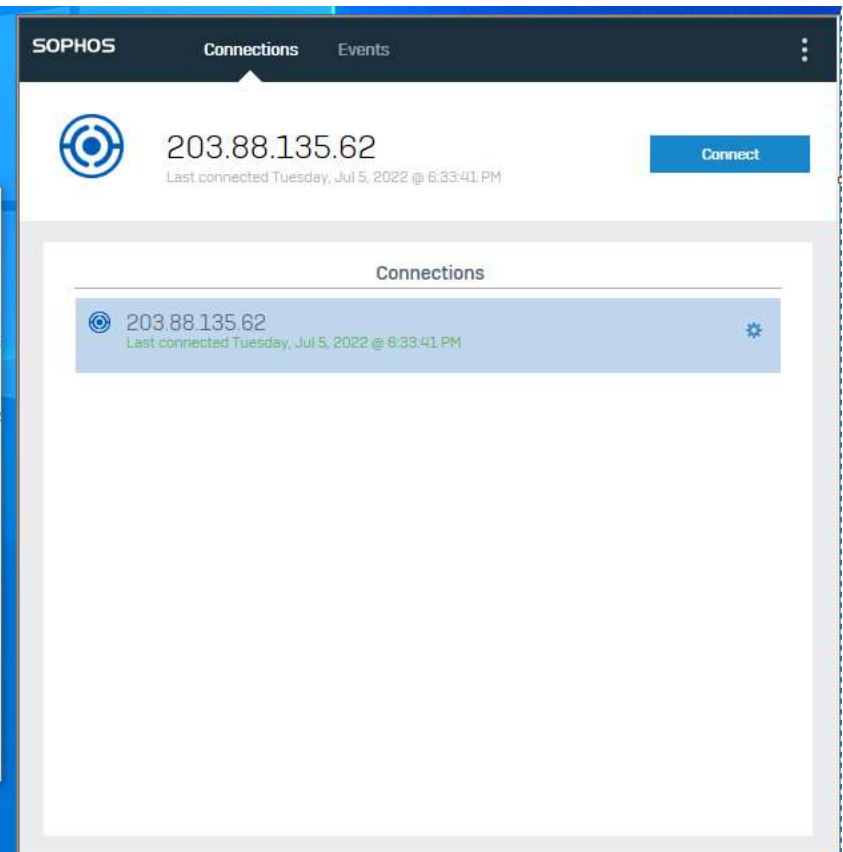

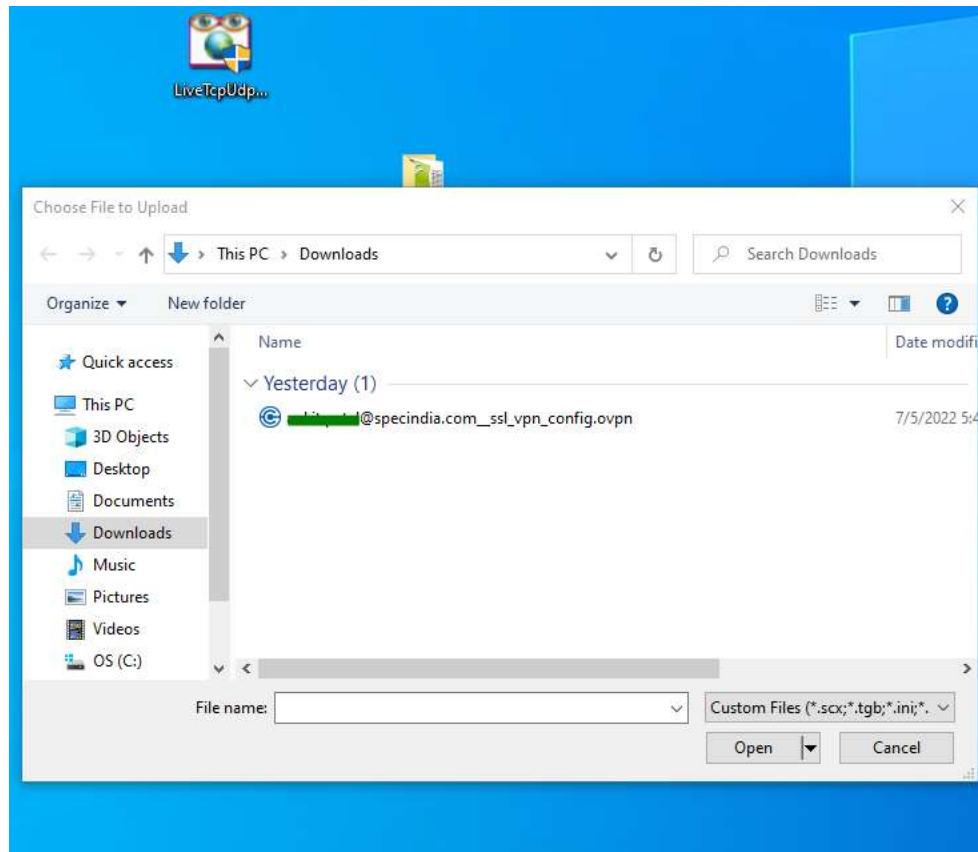

Install the file downloaded in step 3(A)

After successful installation (Sophos Connect client), open '**Sophos Connect Client**'.

An icon will be visible in the system tray.

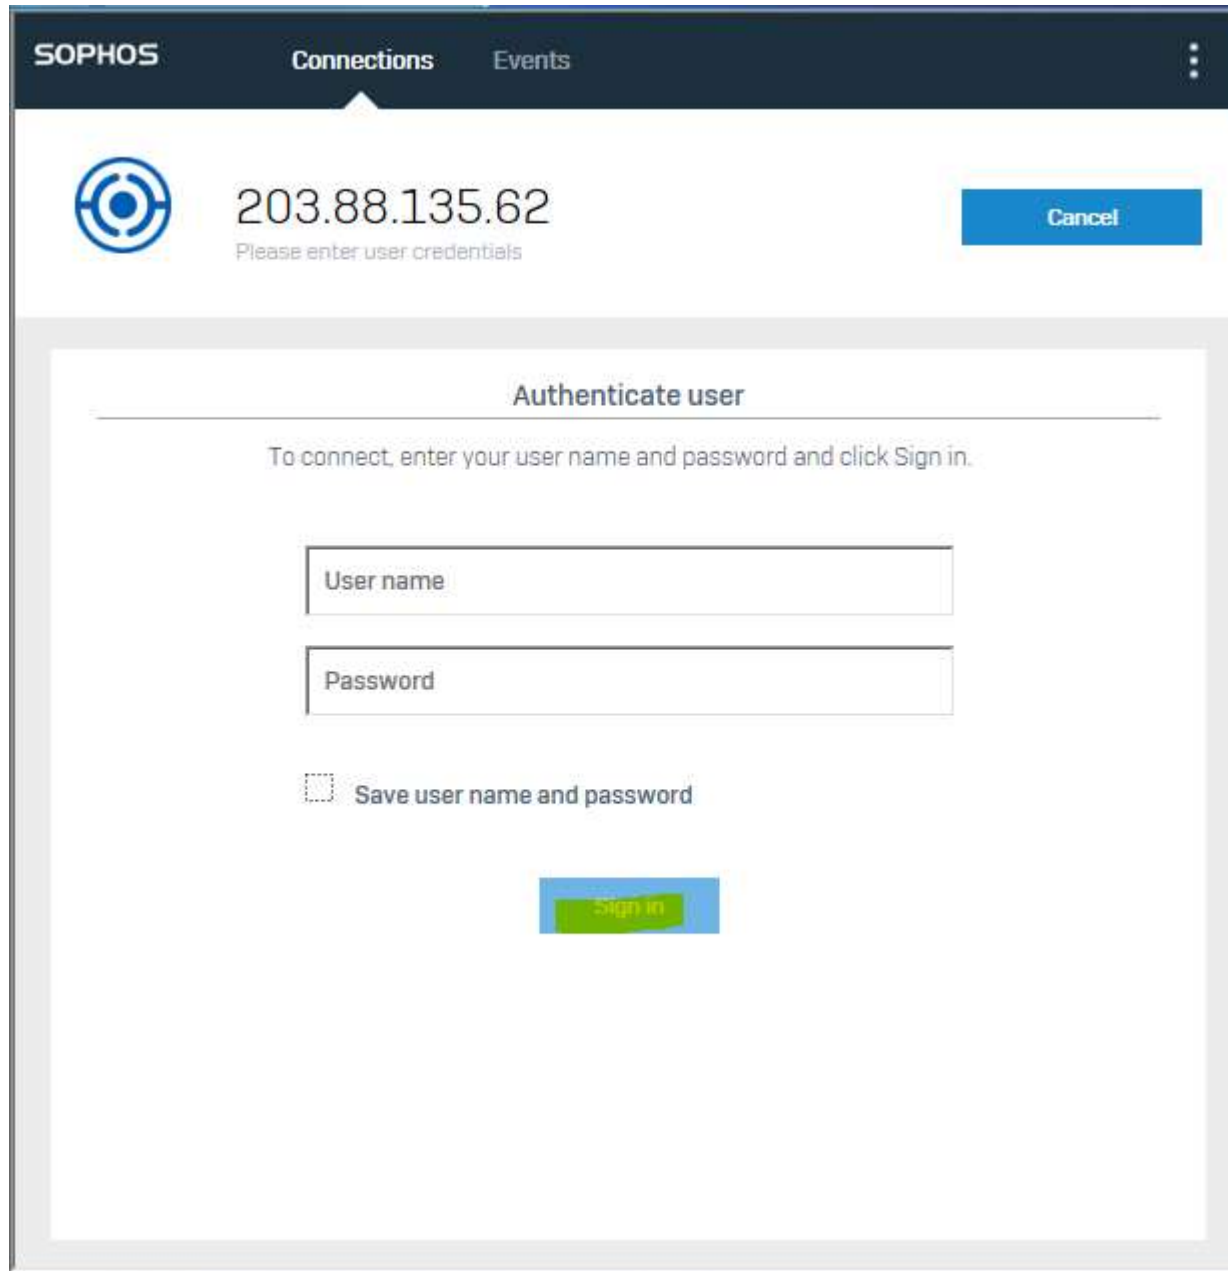

Click the three dots button in the upper-right corner, click **Import connection**, and select the .ovpn file you've downloaded in step number 3(B) as shown in image below:

**Step 5:**

Sign in using your VPN credential (same as Active Directory Windows login credentials)

The image shows a Sophos VPN authentication window. At the top, there is a dark blue header with the 'SOPHOS' logo on the left, and 'Connections' and 'Events' tabs in the center. A vertical ellipsis menu is on the right. Below the header, the main area has a light blue background. On the left, there is a circular icon with a stylized 'S'. To its right, the IP address '203.88.135.62' is displayed in a large font, with the text 'Please enter user credentials' in a smaller font below it. A blue 'Cancel' button is located to the right of the IP address. Below this, a white box with a gray border contains the title 'Authenticate user' centered at the top. Underneath the title, a message reads: 'To connect, enter your user name and password and click Sign in.' Below this message are two input fields: 'User name' and 'Password'. Below the 'Password' field is a checkbox labeled 'Save user name and password'. At the bottom center of the white box is a blue button with the text 'Sign in' in white.
